CENTRAL ST, WYANDOTTE, MI
Dated 3-10-2021
Page 1 of 1**

Following the Pre-Bid Meeting on Wednesday, March 10, 2021, the following questions, changes or revisions to the Bid Package Document were identified.

Item 1-1 Question regarding requirements for interior protection. One bidder asked if any "interior protection" was to be installed. The question was intended to ask if there would be mandatory requirements to hang plastic materials under the roof deck. Section 01500, Item 3.02 A of the Documents states:

3.02 INTERIOR PROTECTION

- A. While no special interior protection is required, Contractor shall regularly and routinely make an inspection of the inside of the building(s) below the areas being worked on and shall perform brooming and sweeping so as to collect and remove any debris that enters the building as a result of the roof construction.

We also discussed that when units are to be removed/lifted/reset or when deck repairs may be needed that coordination of those efforts shall be performed and generally it would include a spotter inside during such actions.

Item 1-2 Question regarding whether this project will have Prevailing Wages applied. Yes, this project will be subject to Davis Bacon Act (WIFIA X Cutters). Contractors shall further refer to the contract for additional information.

Item 1-3 Regarding the construction schedule. Both the Bid Form and Section 00230 Preliminary Construction Schedule list that the work shall be substantially complete by August 31, 2021 and final completion by September 21, 2021. Those dates shall be changed to reflect substantial completion of the work by no later than November 15th, 2021 and final completion by December 15th, 2021.

There is no change in bid due date, nor other changes to the Bid Package other than as listed above.

Please include on Page 1 of the Bid Form that you have received this Addendum No. 1. By submitting a bid you represent that you have received this Addendum and all it includes.
